GREETINGS

Chairman of the Organizing Committee

Dear Esteemed Industry Partners,

It is with great pleasure that I extend an invitation to collaborate in the 74th Continuing Orthopaedic Education (COE) of the Indonesian Orthopaedic Association (IOA), to be held in Palembang, South Sumatra.

With gratitude to the Almighty God, this scientific meeting continues to serve as a cornerstone event in advancing orthopaedic education, research excellence, and clinical innovation across Indonesia. Guided by this year's theme, "Rediscovering Basic Orthopaedic Principles to Drive Future Breakthroughs," the program reinforces the importance of strong foundational knowledge while supporting the introduction of technologies, techniques, and research that will shape the future of musculoskeletal medicine.

This year's program features highly regarded national and international faculty, scientific sessions, case-based discussions, workshops, and poster presentations. The COE remains a trusted platform where knowledge meets practical application, and where new technologies and clinical advancements can be introduced to the orthopaedic community.

The strength and sustainability of this meeting rely not only on academic contributions but also on the strategic partnership with industry stakeholders such as yourselves—organizations that play a pivotal role in shaping the future of orthopaedic care. Through sponsorship, participation, and exhibition, your support enables continued education, innovation dissemination, and clinical advancement for practitioners nationwide.

On behalf of the organizing committee, we invite you to join us as an official partner of the 74th COE. Together, we can foster meaningful collaboration and support the progress of orthopaedics in Indonesia.

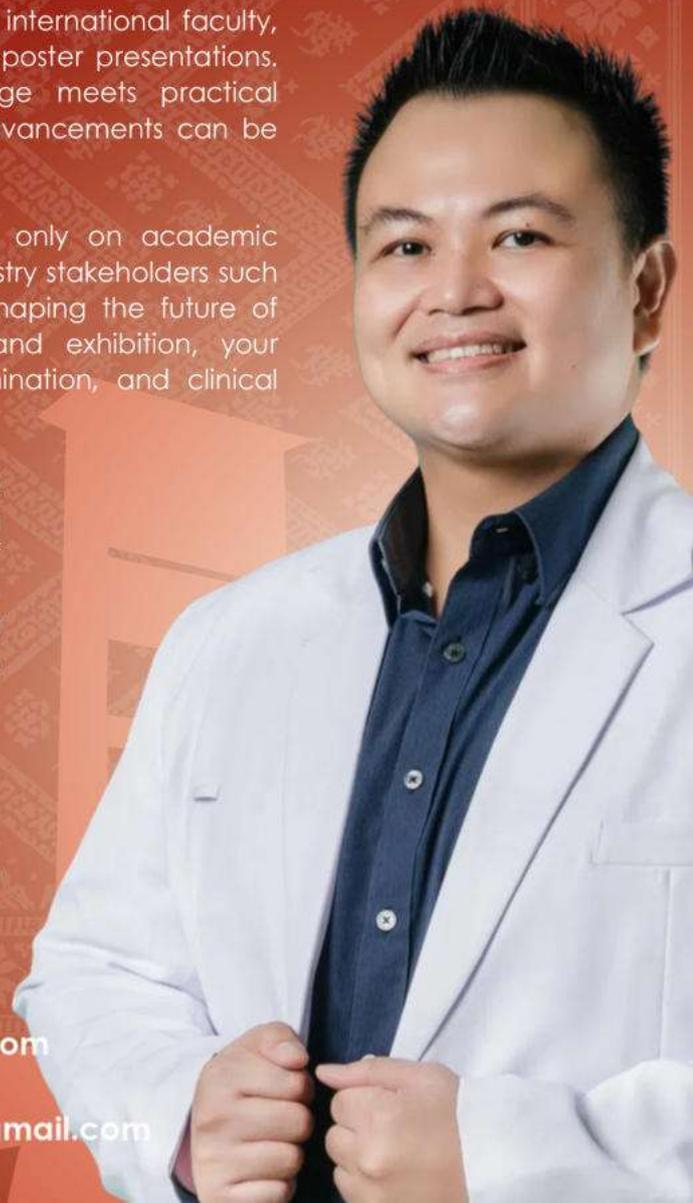

We look forward to welcoming you to Palembang and building a partnership that brings mutual value, long-term impact, and shared progress.

Warm regards,

Primadika Rubiansyah, dr., Sp.OT.Subsp.Onk.Ort.R(K)

Chairman, Organizing Committee

74th Continuing Orthopaedic Education (COE) Indonesian Orthopaedic Association (IOA)

GREETINGS

Chairman of IOA South Sumatra, Bangka Belitung, and Bengkulu

On behalf of the South Sumatra, Bangka Belitung and Bengkulu Branch of the Indonesian Orthopaedic Association, I am honored to extend my warmest greetings to all participants of the Continuing Orthopaedic Education 2026.

This year's theme, "Rediscovering Basic Orthopaedic Principles to Drive Future Breakthroughs," reminds us that true innovation is firmly rooted in strong fundamentals. As orthopaedic surgeons, our mastery of basic principles remains the foundation upon which future advancements are built.

In an era of rapid technological development and evolving surgical techniques, revisiting and strengthening these core principles ensures that innovation remains safe, evidence-based, and patient-centered. By deepening our understanding of the fundamentals, we empower ourselves to contribute meaningfully to future breakthroughs in orthopaedic care.

I warmly invite all colleagues to actively participate in this special event. Let us take this opportunity to learn, to share, and to strengthen our professional collaboration for the advancement of orthopaedic services in Indonesia, and visit the beautiful land of Sriwijaya. Thank you for your commitment and participation.

Warm regards,

Wiria Aryanta, M.Kes. dr., Sp.OT.Subsp.T.L.B.M(K)

Chairman of IOA South Sumatra, Bangka Belitung, and Bengkulu

GREETINGS

IOA President

Dear Esteemed Members of Indonesian Orthopaedic Association,

This time has come that the Indonesian Orthopaedic Association (IOA) will be hosting the Continuing Orthopaedic Education (COE) of Indonesian Orthopaedic Association (IOA) on May 12-16, 2026 at Novotel Palembang Hotel & Residence. The venue will be held in Palembang, the capital city of South Sumatra.

The organizing committee, led by dr. Primadika and his team, has promised this event will be unforgettable, both scientifically and socially. You can also meet with colleagues as old acquaintances and dig out old memories.

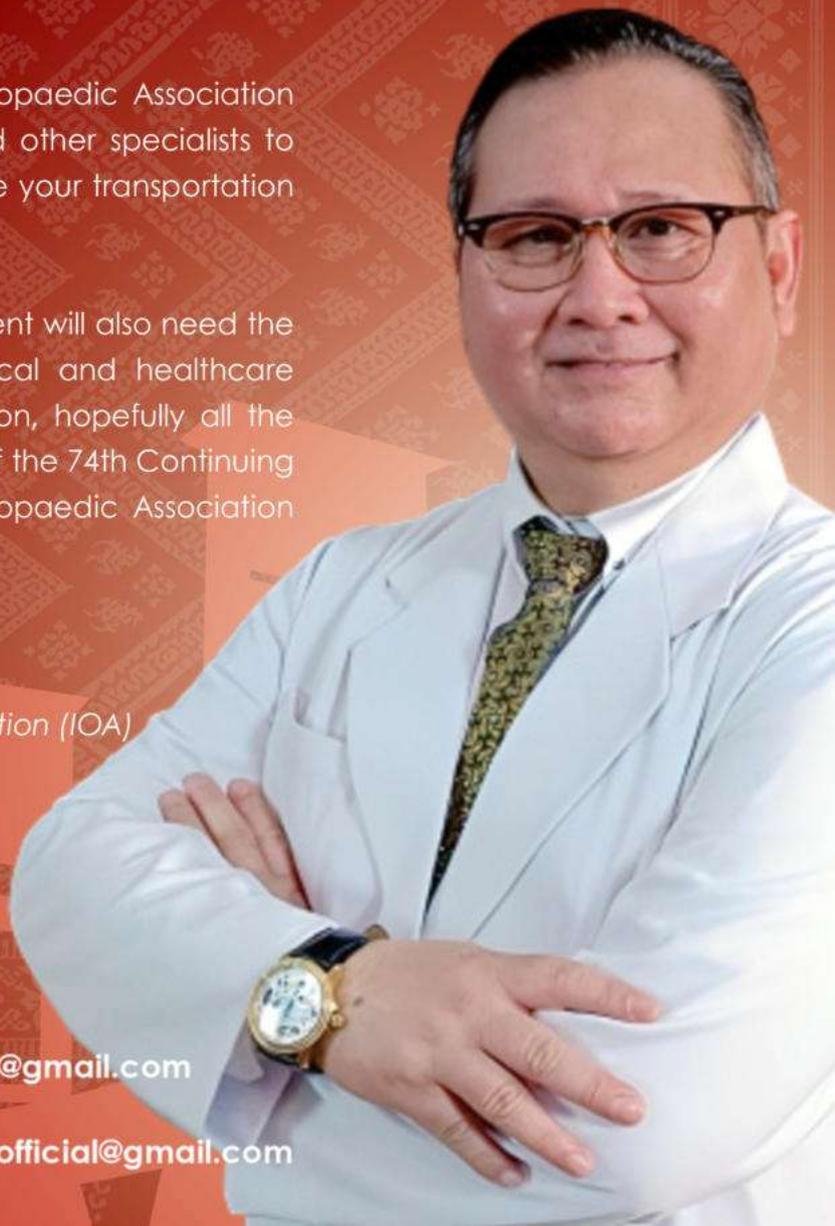

I urge all members of the Indonesian Orthopaedic Association (IOA) and also to General Practitioners and other specialists to mark the dates on your gadget and arrange your transportation early.

One thing for sure, the success of the this event will also need the participation and support of pharmaceutical and healthcare product companies as well. On this occasion, hopefully all the companies will participate in the exhibition of the 74th Continuing Orthopaedic Education of Indonesian Orthopaedic Association (IOA).

Yours Sincerely,

Bintang Soetjahjo, Dr., dr., Sp.OT.Subsp.P.I(K)

President of Indonesian Orthopaedic Association (IOA)

About **SOUTH SUMATRA**

South Sumatra is a unique Indonesian province combining history, culture, and natural beauty. Centered on Palembang—one of Southeast Asia's oldest cities—it reflects the legacy of the Srivijaya maritime empire, which still shapes its cultural identity today.

Palembang is the main tourist hub, known for the Ampera Bridge over the Musi River, river cruises, traditional houses, and historic sites such as Kemaro Island. Museums and heritage areas also showcase the region's past.

Beyond the city, the Bukit Barisan Range and Mount Dempo in Pagar Alam offer cool highlands, tea plantations, waterfalls, and scenic viewpoints, making the area ideal for nature lovers.

The province's rivers, wetlands, and lakes support diverse wildlife and traditional communities, attracting eco-tourism and photography enthusiasts.

South Sumatra is also famous for its cuisine, especially pempek fish cakes with vinegar sauce. Together, its food, history, culture, and landscapes make it a rewarding yet less-crowded travel destination in Indonesia.

COE•IOA
Continuing Orthopaedic Education

74th Continuing ORTHOPAEDIC EDUCATION

*Rediscovering Basic Orthopaedic
Principles to Drive Future Breakthroughs*

One of our **largest events** in
the field of orthopaedics.

The 74th Continuing Orthopaedic Education (COE) organized by the Indonesian Orthopaedic Association (IOA)

This event features gatherings, board meetings, scientific seminars, workshops, and regular activities that engage orthopaedic surgeons, general practitioners, and other specialists with an interest in orthopaedics and traumatology.
